

FAASTeam presents:

The REAL REASON Stall/Spin Fatal Accidents Occur!

Stall dynamics, and how to tell in advance which wing will drop first and why. We will discuss a few real accidents and what would have saved the fatally injured pilots. Plus, revealed will be the rare, but very dangerous type of stall that all too often is ignored. It requires a totally counter-intuitive method to recover from it.

Directions: EAA Chapter 14 is located at the East side of Brown Field (SDM) immediately to the East of the active control tower. We meet in the hangar closest to the runway. Call Chapter 14 from the access pedestal to open the gate, number is posted on the pedestal.

This seminar will be conducted in person at EAA Hangar 1 at Brown Field, and also broadcast on Zoom for those who cannot attend in person

Topic: EAA Chapter 14 June Meeting - The REAL REASON Stall/Spin Fatal Accidents Occur! with Ron Berinstein

Time: Jun 17, 2023 10:00 AM Pacific Time (US and Canada)
